

Opening the doors to our fresh new classrooms

Nuhaa Daniels, Sue Mc Petrie and Fowziyyah Rajaldien.

Thank you Polyoak for our airy new classrooms, the perfect environment for shaping the next generation of outstanding teachers. Your contribution has set the stage for excellence in education.

Celebrating year-end with a scenic walk up Constantia Nek.

Happy Nenemba, Aviwe Tamse and Sanele Nkomombini.

Following the walk, we made our way to Clay Café, where we each painted a bowl. A truly memorable day.

Our first-year students tour Polyoak

This tour helps students get to grips with the impressive work done by Polyoak, and all that goes into the success which contributes to funding our Maths teacher scholarship.

"It was fascinating to see how everyday items are made, and the procedures to ensure quality and consistency." **Sarah Soloman**

"A wonderful aspect was the warm hospitality we received in every department." **Luthando Buffel**

"Jake Rabbets was thorough in explaining the different machinery and how products are made." **Zahrah Arend**

Welcome Rochelle Witbooi

Once she kept things running smoothly in Housekeeping. Now she brings her organisational skills and work ethic to her role as Administrator Extraordinaire, and we are thrilled to have her.

You are now qualified teachers

Congrats to **Happy Nenemba, Qudsieya Sampson and Jamie-Leigh Boyd**

Happy is taking a well-deserved break, Qudsieya is inspiring young minds at Pinelands Primary, and Jamie-Leigh is a Grade 5 teacher at Bayview Primary. We are proud of you.

Honouring a maths hero

We were deeply saddened by the passing of **Aarnout Brombacher**. He was profoundly committed to passing on a love for mathematics and empowering teachers to help students develop a genuine understanding. He will be sorely missed.
