

Turning great minds into great teachers

11 years in, and 100% of our Teachers Plus graduates are employed as teachers

#PROUD AND HAPPY

DID YOU KNOW

Our future teachers are talented students who are trained over five years to be experts in mathematics teaching, so they too can change lives.

Blown away by Polyoak

Our scholarship students get to see what we do

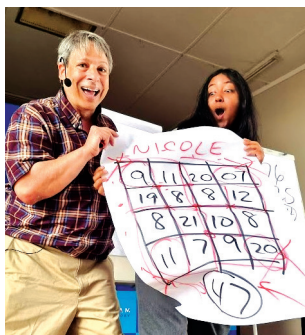

"I was blown away by how big the departments were. The highlight was seeing how many products Polyoak produces."
CHADWIN HAMZA, 2ND YEAR SCHOLARSHIP STUDENT

"Ramosonngoa Kuenane was amazing, going into detail about processes and machines. It was captivating learning how the packaging of our daily products is made. I never realised how hard people work in factories."
JENNA BRUYNS, 1ST YEAR SCHOLARSHIP STUDENT

My first year as a teacher!

"Being a teacher enables me to share my passion for mathematics and learning. The challenges can be daunting, but with hard work, passion and a love for working with children, teaching is a rewarding profession. Teachers Plus prepared me well!"
KAUTHAR ABRAHAMS, 2021 GRADUATE, GROVE PRIMARY

HOW DID HE DO THAT? Mathemagician Professor **Arthur Benjamin** had our students aghast with his card tricks, calculations and magic squares. Best was when he shared some maths magic. Thank you to the Sakhikamva Foundation for the invite.

FAREWELL TO A FABULOUS FACILITATOR Di's commitment to excellence in mathematics education led to innovative and engaging teaching strategies at Teachers Plus. We wish her the best.

DI DONALDSON

AND WELCOME LINDELWA MINI As Operations Manager for our in-service teacher training programme, Lindelwa is committed to making sure teachers have all the resources and inspiration they need to succeed in the classroom

Celebrating our year end at Intaka Island wetland and bird haven

"Sometimes taking your mind off academics and learning about nature is a good thing. The lunch sponsored by Rabie Property Group was amazing."
BONKE MASIZANA, 4TH YEAR SCHOLARSHIP STUDENT

"We were given a guided tour and ride on the Intaka Ferry. We stopped at the Long March to Freedom Statues. The 100 life-sized bronze statues are so beautiful and inspiring. Here I am pretending to be Ida Mntwana, activist and first president of the Federation of SA Women."
AVIWE TAMSE, 2ND YEAR SCHOLARSHIP STUDENT
