

Excited, grateful, blessed...

This is how our first and second year students felt at the start of the academic year.

Teachers Plus turns talented youngsters into accomplished maths teachers over a five-year intensive degree programme.

We do this because our kids deserve great maths teachers.

So much joy as our graduates become teachers

Congratulations to **Claude Coskey**, now at Rustenburg Girls' High, and **Jade Petersen**, at Floreat Primary. We wish you all the best in your teaching careers. Thank you for making a difference.

Welcome Garth

Garth Spencer-Smith joins us as a primary school mathematics methodology specialist. He has a wealth of experience in primary and secondary school education, and deep commitment to mathematics education.

Being accomplished in mathematics empowers children to navigate our world with confidence and precision. Maths proficiency also serves as a gateway to further studies and helps to expand the mind."

BRENDA ELSHOVE

Celebrating the year end with a tour of the Mother City

OUR FUTURE TEACHERS

enjoyed a break from their studies with a Red Bus city tour, stopping at Kirstenbosch Gardens, Camps Bay beach, Sea Point and Green Point Park.

"I felt like a tourist in my own city! It reminded me how beautiful our city is and how grateful we should be to those who fought for a free and democratic South Africa."

NUHAA DANIELS

"The highlight was how beautiful Cape Town is."

CHELSEA PETERSEN

"I got to see places I've never been. It left me intrigued to explore more."

ANELISA MCASA

Thank you Colleen

COLLEEN, with five accounting butterflies, all now graduated and working as teachers.

A focus on training mathematics teachers has meant saying goodbye to our remarkable accounting specialist, Colleen Hodge. Over the past decade she inspired us with her passion, expertise and infectious enthusiasm for her subject and our students. Thank you for everything. You will be missed.

Goodbye to Ernest Moore, a Director at Teachers Plus

Heartfelt gratitude goes to Ernest for his outstanding leadership, wisdom, knowledge and indelible mark on our Foundation.

ERNEST, in checks, with our Teachers Plus and Education Foundation teams.
